Type of banner that can use

Note:  
We recommend to use  
Extended Banner which is  
more dynamic with more  
functions

#### New banner

After you create a banner here, you should use the **Layout editor** to add it to the storefront.

Go to **Design** → **Layouts**, switch to the location where you want the banner to appear, and add a new block with type **Banners**.

In this block settings, go to the **Content** tab, pick the **Manual** filling, and click on the **Add banners** button.

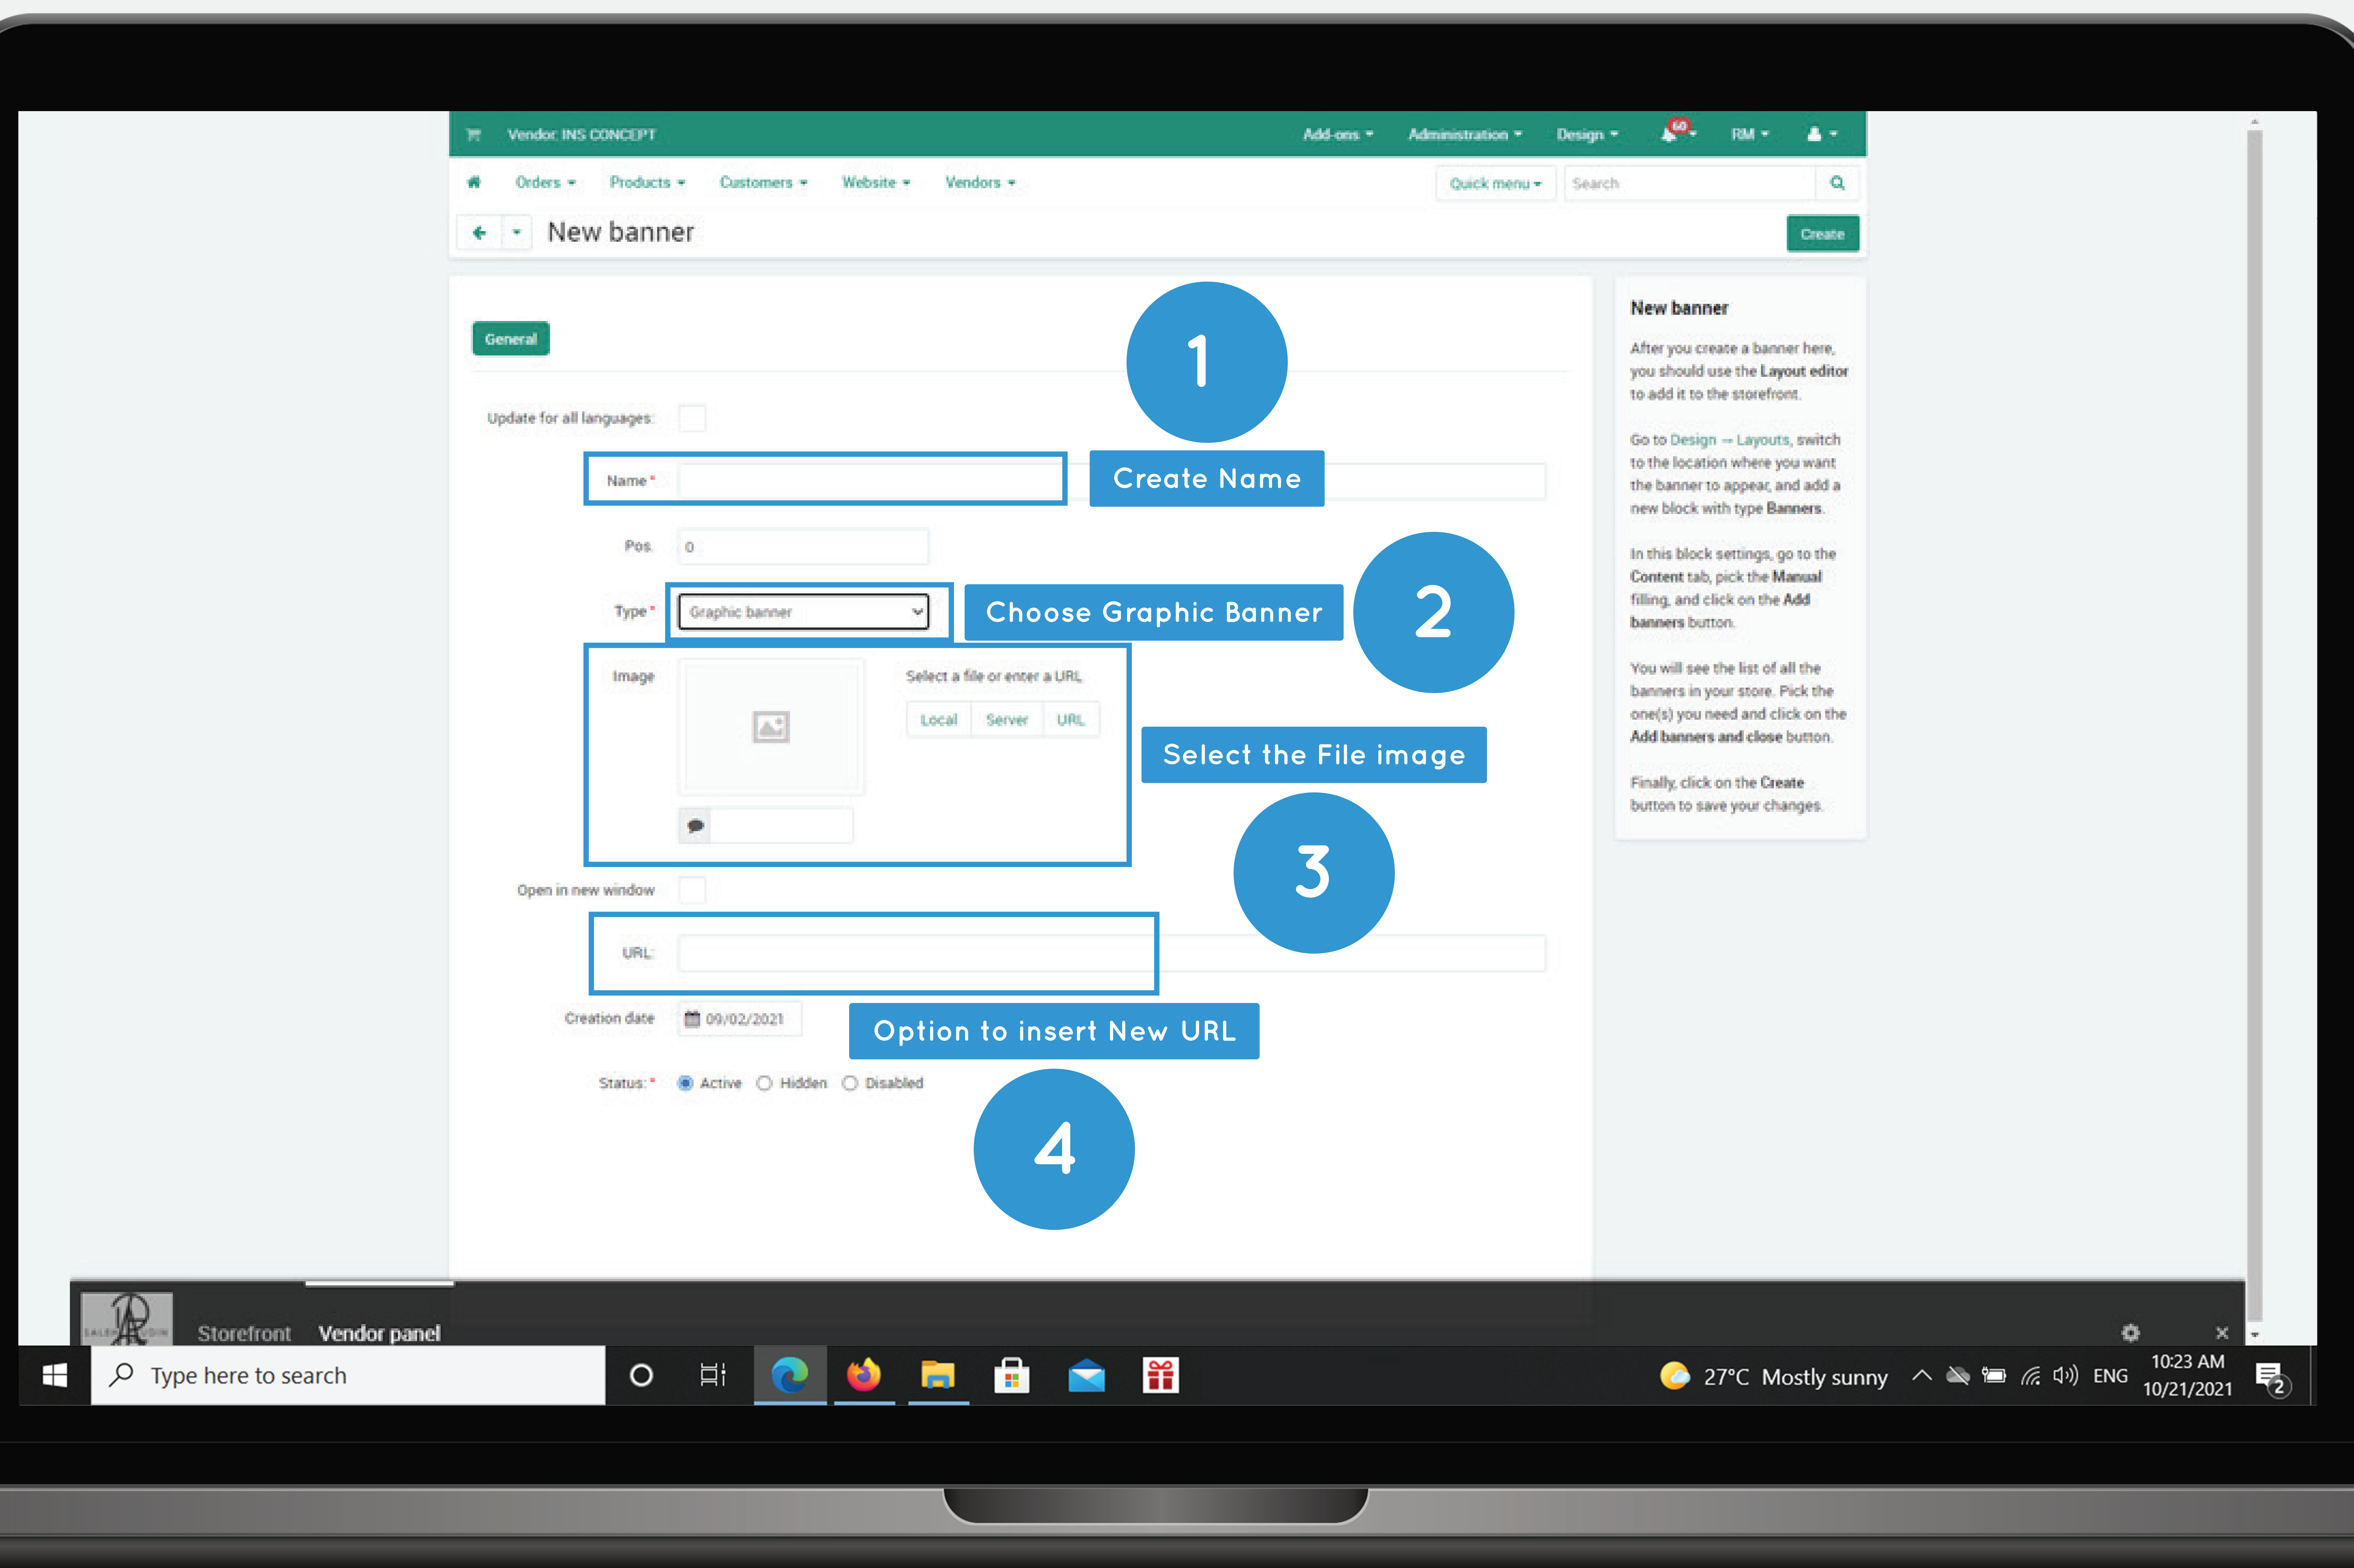

You will see the list of all the banners in your store. Pick the one(s) you need and click on the **Add banners and close** button.

Finally, click on the **Create** button to save your changes.
